

REQUEST FOR PROPOSAL (RFP)

Healthcare Cloud Modernization and Digital Services

RFP ID	HCM-2026-001
Issuing Organization	ApexCare Health Network
Industry	Healthcare
Proposal Deadline	15 October 2026
Project Duration	6 months
Contract Type	Fixed-price implementation + support

1. Project Background

ApexCare Health Network is seeking a technology partner to modernize selected clinical and administrative workloads using a secure cloud platform. The solution must improve scalability, operational visibility, reliability, and integration with existing healthcare systems while maintaining strong security and compliance controls.

2. Scope of Work

- Assess existing application and infrastructure workloads.
- Design and implement a Microsoft Azure-based cloud architecture.
- Migrate prioritized applications and data with minimal service disruption.
- Implement monitoring, logging, backup, disaster recovery, and security controls.
- Provide documentation, knowledge transfer, and administrator training.
- Provide post-implementation support for at least 90 days.

3. Mandatory Requirements

Category	Requirement
Cloud	Demonstrated experience with Microsoft Azure architecture and migration.
Security	Encryption in transit and at rest, identity and access management, audit logging.
Compliance	Proposal must explain the approach to healthcare data protection and applicable compliance requirements.
Availability	High-availability architecture and documented disaster recovery approach.
Support	24/7 incident support with defined response and escalation procedures.
Implementation	Complete implementation within 6 months.
Documentation	Architecture, deployment, security, operations, and user documentation.

4. Proposal Evaluation Areas

- Understanding of the requirements and proposed technical approach.
- Azure architecture and migration methodology.
- Security, privacy, and compliance approach.
- Implementation plan and timeline.
- Relevant experience and case studies.
- Support and service management model.

- Commercial proposal and value for money.

5. Expected Proposal Structure

- Executive Summary
- Understanding of Requirements
- Proposed Solution
- Technical Architecture
- Security and Compliance
- Implementation Timeline
- Support and Maintenance
- Relevant Experience
- Commercial Proposal
- Assumptions and Risks

6. Submission Instructions

Submit a PDF proposal containing the requested sections, implementation plan, relevant experience, assumptions, risks, and commercial information. The proposal should clearly identify how each mandatory requirement will be addressed.

This is a synthetic RFP created for testing the BidMemory hackathon application.
